RIS1000-16G-2F

INDUSTRIAL SWITCH

This 16-port unmanaged Gigabit Industrial Ethernet Switch features 16×10/100/1000Base-T(X) RJ45 ports and 2×1G SFP slots, delivering rugged, high-speed networking for harsh environments. Designed for industrial automation, outdoor deployments, and mission-critical applications, it provides plug-and-play connectivity with fiber-optic extension capabilities.

- ✓ High-Speed Networking
- 16× Gigabit Copper Ports: 10/100/1000Mbps auto-negotiation, full/half-duplex, Auto-MDIX
- 2× Gigabit SFP Slots: Supports 1.25Gbps single-mode/multi-mode fiber (up to 20km)
- ✓ Industrial-Grade Reliability
- -40°C to 75°C operating temperature
- IP40 metal housing, DIN-rail/wall mountable
- 6kV surge protection (Ethernet ports), anti-vibration
- ✓ Redundant Power Input (Optional Models)
- 12/24/48V DC dual power for failover support
- ✓ Zero Configuration
- Plug-and-play, auto-negotiation, flow control (IEEE 802.3x)
- ✓ Energy Efficient & Fanless
- Low power consumption, silent passive cooling
